Monthly Meeting — Saturday, May 4th
Ollie's Station Restaurant, 4070 Southwest Blvd, Tulsa, OK 74107
7:30 AM to 08:00 AM—Parking Lot Gathering; 08:30 AM meeting starts indoors!

Dues Reminder—Your 2024 Chapter Dues are due in January 2024. *(See last page of newsletter for Membership Application.)*

BOARD MEMBER'S REPORTS

President's Comments— Let's start of the May Side Pipe with congratulations and thanks to Dale Scott and Corey Bates. Thank you for bringing your incredible cars to our chapter judging event on April 19-20! Congratulations to Corey for getting a Top Flight award on his '58 and to Dale for Top Flight awards on both of '53s! We had a great turn out with people coming from all over the region to participate. Thanks to everyone that joined us and for everyone that helped put it together. Special thanks to Gene Holtz for making it all happen. If you were there, you know what a great event we had and if you didn't join us, you really missed out on a truly special event.

May presents another opportunity for a fun chapter event outside of our chapter breakfast meeting on May 4th. Please help us get the word out to fellow club members and potential members for our garage tour event at the Garage Condos of Tulsa on Sunday, May 19th from 1:00 to 4:00 pm. 8720 S. Elwood Ave, Tulsa. Mike Smith will be cooking pizzas, Dale Scott will be displaying one of his '53 Corvettes in the clubhouse, Kelly Bolton, Pat McMichael, Mike Smith, Mark Wakefield, and I will all have our condos open with cars and other novelties on display. A few other condo members will likely have their condos open to us as well. I heard a rumor that there may be a surprise in store by one of chapter members. I don't want to give too much away, so be sure and join us.

On the subject of garages, I have a request of all of our chapter members. Please check around your garages, your shops, your storage areas, etc for any chapter assets you may have. At our last board meeting, we discussed the need to compile a list of all club assets. We have started that process, but need your help. If you have anything that belongs to the chapter, like tools or publications, please let Travis Firey or I know so we can get it added to the list. At the May breakfast meeting, we'll discuss how we manage this list going forward. See you Saturday, May 4th at Ollie's Station!

**NCRS Oklahoma Chapter President
Rob Wilson (NCRS #48348)**

Membership Chairman's Comments— We are currently at a 79% chapter renewal rate for 2024. I will be accepting your 2024 dues at the May 2024 meeting.

**NCRS Oklahoma Chapter Membership Chairman
Charles Buxton (NCRS #48996)**

Judging Chairman's Comments—As I write this we have just completed another successful chapter judging event and all the judging awards and judging points have been submitted to the national judging chairman for approval. There is no need for going over the events of the weekend other than to say if you did not come you missed a great time with a informative seminar by Roy Sinor and judging school by Tony Stein.

We had 3 Corvettes entered for judging that all received a Top Flight Award's. Dale Scott from Tulsa with two 1953,s and Corey Bates From Kansas with his 1958 FI. Rob Wilson also let us use his 1965 for the chassis judging school. We had members from all over the region entered to help us judge and further there judging journey. We would not have been able to put it on without help from everyone involved and especially Dominic White who let us use his building.

September 21st, is the tentative date for our fall chapter judging, I was thinking of a 1 day event with 1 or 2 cars to Flight Judge. We could also Concours Judge at the event if anyone is interested. Think about having your car judged and let me know if you are interested and we can work out a location and date if the 21st will not work.

I talked with Rob and we will be holding judging school's at his garage condo after the breakfast meeting starting in June and any other month that we don't have

(Continued on page 2)

(Continued from page 1)

anything planed until we finish going over his 1965 one section a month to give him a idea of what if anything needs to be addressed before Flight Judging. We will start with operations and go over the information that the VIN and trim tag will tell us. This will be a good time for members who want to learn about the judging process and how the 63-67 judging sheets are split up between originality and condition.

NCRS Oklahoma Chapter Judging Chairman

Gene Holtz (NCRS #10606)

Treasurer's Comments: We still got money in the bank!

NCRS Oklahoma Chapter Treasurer

Scott Pfehler (NCRS #20940)

Garage Condo Cookout/Garage Tours

The Oklahoma Chapter of NCRS is having a garage tour at Garage Condos of Tulsa (8702 S Elwood Ave, Tulsa, OK 74132) Sunday, May 19th

from 1:00 pm to 4:00 pm.

The clubhouse will be open with a unique 1953 Corvette on display. Kelly Bolton, Mike Smith, Pat McMichael, Rob Wilson and several others will have their garages open with their cars on display. In addition, there will be ongoing projects to discuss and Rob will have his jukebox ready to play the tune of your choice.

You and your family are invited to join us and/or display a car or two! Call it a garage tour, a show-n-shine, bench racing, or a restoration discussion... you are welcome to join us for some fun.

Hope to see you Sunday, May 19th,

Kelly Bolton

“Rochester Quadrajets Carburetor...”

By ??

The Quadrajets is a four barrel carburetor, made by the Rochester Products Division of General Motors. Its first application was the new-for-1965 Chevy 396ci engine. Its last application was on the 1990 Oldsmobile 307 V8 engine, which was last used in the Cadillac Brougham and full size station wagons made by Chevrolet, Pontiac, Oldsmobile, and Buick.

The carburetors have been billed as difficult to tune and unreliable by some, however, many times this is simply attributed to the lack of knowledge of the unit itself. Consequently, many Quadrajets were replaced with other brands of carburetors in an often ill-fated attempt to rectify a problem that was not caused by the carburetor. When properly tuned, the Quadrajets is both an efficient and effective performing carburetor.

When reviewing the Adjustment Procedures for the Models 4MV, 4MC, M4MC, & M4ME there are approximately 48 adjustment procedures that must be performed in the proper sequence. Here are a few examples. If you would like to know more about these carburetors, there are a few good books that available on the subject or you can search the internet to get additional information on these time tested carburetors.
