

Seminar: Covering Assembly of Borg Warner T-10 4-speed Transmission

Presented by: John Perrette of Cleveland Chapter (NCRS member #7070)

Date: March 20, 2010 (Saturday)

Location: Columbia Chevrolet on Montgomery Road

Seminar Time: Start 12:30 - 4:30 PM (May finish earlier)

Food: No food provided

Duration approx. 3 - 4 hrs.

Questions: contact Bob Spencer (937) 426-3889 (Thanks to Bob for setting this up)

See the e-mail below for a descriptions of this seminar. John has done this several time and it should be a great learning experience for all of us.

Subject: Transmission Rebuild Seminar

Steve,

I have a proposal for a future technical seminar for the Cincinnati NCRS Chapter. **The proposal is to have a seminar covering the complete rebuild process for a Borg Warner T-10 Transmission.** I had mentioned this briefly to you after the last chapter meeting.

I placed a call today (11-18-09) to John Perrette (NCRS member #7070). I remembered him from the Cleveland Chapter back in the early 1990's. He has done these seminars for the Cleveland Chapter (and other groups) in the past.

He said he will conduct this seminar in Cincinnati for our chapter. **The seminar would take 2 to 3 hours** and would involve the following. John would bring a complete transmission (all components) cleaned and ready to assemble. He would go through the step by step assembly process and assemble the complete transmission as part of the seminar.
